

# Michael Remington

---

1016 High St, Bellingham, WA 98225  
michael.remington@outlook.com, (509) 638-7653

## Education

*Bachelor of Science*, Computer Science  
Western Washington University, Bellingham, WA, expected June 2016

## Projects

### *Course Projects:*

- Wrote a Java program that clusters data points using the K-means and single-link agglomerative clustering methods.
- Developed a program in Java that builds phylogenetic trees using pairwise distances between aligned amino acid sequences and an agglomerative clustering algorithm.
- Wrote a banking program in Java using concurrency methods that was able to process 10,000,000 transactions across 100 accounts significantly faster than a sequential program.
- Implemented a server and two distinct types of client for an online chat application using sockets in C.
- Created a program in Java using hash sets and linked lists that is able to automatically discover words from input text using bigram products.
- Developed a speech recognition program in Java which takes as its input a directed acyclic graph.
- Applied a series of buffer overflow attacks on an executable file after analyzing and probing the assembly code using the GDB debugger.

## Experience

*Research Lab Assistant* July 2013 - September 2014  
Rose Neuroscience Lab, Western Washington University, Bellingham, WA

- Wrote a program in Java to automate the task of coding microscope images to be evaluated without bias. This reduced image coding time from around forty minutes to near instantaneous.
- Prepared and microinjected plasmids into *C. elegans*.
- Performed a variety of lab tasks while assisting with research.

*Intern* Summer 2012  
Mobius Science Center, Spokane, WA

- Developed a system for recording and interpreting data visually and statistically from visitor surveys.
- Authored an eighty-page booklet detailing the scientific concepts behind each exhibit.
- Created and updated graphic design for public documents.

## Programming Languages

*Skilled With:* Java, C, Racket.  
*Experienced With:* Ada, Python, Assembly, Visual Basic.  
*Tools:* Git, Subversion, GDB.

## Publications

*Conference:*  
Jacqueline Rose, Nicole Stankowicz, Amanda Leonti, Parker Stafford, Michael Remington, Katrina Mar, Samuel Moss, Andrew Records-Galbraith. *Examination of the Interplay between Acetylcholine and GABA signaling at the NMJ*. CeNeuro 2014.
